

REALASSETS ADVISER

The magazine written for registered investment advisers and wealth managers seeking insights and actionable information on investments in real assets

2019 Editorial Calendar

January

The 411 on 1031s

Capital gains taxes can devour the gross returns from a successful investment, but a properly executed 1031 exchange can offer investors shelter from a big tax hit, as well as an opportunity to reinvest proceeds in a new asset. What's more, new legislation has reinvigorated the 1031 and encouraged more investors to take advantage.

Cannabis legitimized

The legal marijuana market is maturing and creating ever-greater investment opportunities.

2019 Visions, Insights & Perspectives (VIP) Europe

March

Liquid alternatives flood the market

The aversion among investors and advisers to using alternatives is often rooted in the lock-up period required. But new product structures that make alternatives liquid are changing the game by giving investors the ability to retrieve their cash when desirable or necessary.

2019 Editorial Calendar

Bang for the buck

A look at the alternative asset classes that are delivering the highest returns.

October

More than a wing and a prayer

Angel investing, made famous by the TV show *Shark Tank*, has been around for a very long time, but affluent individuals and families are showing an increasing appreciation for its practice of underwriting early-stage, pre-VC startup companies in exchange for ownership equity or convertible debt.

Less taxing situations

New product structures are providing investors with the kind of tax optimization they have been looking for.

Ad reservations due: Aug. 23

Ad materials due: Sept. 6

November

The outlook for cryptocurrencies

Cryptocurrencies are mysterious and volatile, and some of the biggest names in finance and investing have mocked them. Yet, foreign governments and organizations from Facebook to J.P. Morgan are creating them.

Third-party distribution services

These new enterprises are allowing RIAs to access alternatives by solving expensive and thorny back-end and due-diligence issues they face.
