IREI's Platform

For more than 30 years, Institutional Real Estate, Inc. (IREI) has been the most trusted and reliable source of data, insight and perspective on the real estate, infrastructure and real asset classes.

With a unique and singular platform that focuses on the investor in the most important regions of the world – the Americas, Europe and Asia Pacific – we facilitate a more open dialogue between the investors and the people and companies who serve them.

Armed with tailored daily news content; monthly print publications; online database resources; and exclusive invitation-only programs and events that address investors' needs, concerns and what's keeping them up at night, you're able to make more informed investment strategy decisions.

What's more, investment managers who sponsor IREI's publications and events have the unique opportunity to meet one-on-one with many of the most active investors and raise their firm's profile and differentiate their services.

The result is the ability to build closer relationships faster, more efficiently and at a much lower cost.
